LABOR WILL ORGANIZE PARTY IN MORGAN
PRESIDENT OPPOSES LODGE RATIFICATION RESOLUTIONUNION RESOLUTION
PLEDGES SUPPORT
TO GOVERNMENT OF
U. S. FOR ALL TIMERevolutionary Movements Over
the Entire Nation Are De-
cried by Labor.GREAT PARTIES BLAMED
FOR BREAKING PROMISES"Labor is Promised More and is
Given Less," It Is De-
clared.Branches of the new National Labor
party will be organized in Albany-
Decatur and Morgan county immedi-
ately, according to resolutions passed
at a regular meeting of the Central
Labor union here.The resolutions declare that both
great political parties, for many
years, have contained labor planks in
their platforms, which have been for-
gotten as soon as the political cam-
paign was ended and says that Labor's
most effective weapon is the ballot.The resolutions state the local union
recognizes the fact that the mem-
bers live under the best government
on earth and pledges Labor's support
to that government with all "our
strength.""Should the American people see
it to elect men who are the enemies of
Labor, we, as a minority will sub-
mit to the will of the majority," the
resolutions say, decrying the various
revolutionary movements over the na-
tion. The resolutions are signed by
L. E. Boeglen, E. M. Johns and Chas.
Arnold, all well known citizens of
Albany and leaders in the Labor un-
ion movement.

The resolutions follow:

Whereas, the time has arrived when
Labor must seek another and more
effective weapon to fight its battles,
it was said.Whereas, it is a well known fact
that Labor has been promised more
and given less than any set of men
and women in this country, and,Whereas, both great political par-
ties have Labor planks in their plat-
forms, which are only used during
political campaigns and then forgot-
ten, now,Therefore, be it resolved, that we
recognize the urgent need of Labor
going into politics as the most effec-
tive weapon that Labor has to
fight reactionary forces, and,Be it further resolved, that we give
all aid possible, both morally and fi-
nancially, to the National Labor
Party and that we urge all working
men and women to support that
Labor Party, as it is through the bal-
lot that the most can be accomplished
to better the workers' condition, and,Be it further resolved, that we orga-
nize city, county and state branch-
es of the National Labor Party and
place nominees in the field for every
elective office, but,Whereas we recognize the fact that
we live under the best government on
earth, are determined to uphold that
government and its elected officers
with all our strength, and the only
revolution recognized by us is the
revolution of the ballot, now,Therefore be it resolved, that we
go on record as opposed to all revolu-
tionary movements looking to the
overthrow of this government and
should the great mass of American
people see fit to elect men who are
the enemies of Labor, we, as a minor-
ity, will submit to the will of the ma-
jority.CENTRAL LABOR UNION,

CHAS. ARNOLD.HAMILTON IN RACE
FOR TAX COLLECTORThe Daily today announces the can-
didacy of Judge F. M. Hamilton, well
known Morgan county citizen, for tax
collector of the county. Judge Hamil-
ton has been identified with public
life in Morgan county for a number
of years, having served several terms
as justice of the peace and was the
only judge of the inferior court of
New Decatur, which court recently
was abolished with the enactment of
the bill creating the Morgan county
court.Judge Hamilton was born and
reared in the east end of the county
and has many friends all over the
county. At one time he was engaged
in business on Fourth avenue, Albany.
His friends predict he will make an
exceedingly strong race.DAMAGE SUIT FILED

BERLIN, Nov. 19.—Gen. Luden-
dorff, famous as the "brains of the
German army," who with Field Mar-
shal Von Hindenburg was unexpected-
ly called before the war guilt com-
mission of the national assembly, pro-
vided a peppery witness.Ludendorff declared that Count Von
Bernstorff, former German ambas-
sador to the U. S., had lied to the com-
mission, and then went on to tell of
his and Hindenburg's efforts to in-
crease munitions and war materials
when they assumed supreme command
of the army. The Germans were in-
ferior to the allies in both respects,
Ludendorff said.Troops were posted at strategic
points while Ludendorff and Hinden-
burg were testifying for fear of cen-
tralist disorders."Hindenburg declared that Von
Bernstorff's report had clearly con-
vinced him that the United States
would have entered the war even if
Germany had not declared unrestricted
submarine warfare.""I believe President Wilson's peace

experienced coal miners are now em-
ployed by the Lowe Manufacturing
Company to get out the coal in the
mine on Monte Sano, which is now be-
ing operated by the company. The
output last week was larger than it
has ever been before and it will con-
tinue to grow steadily from now on, it
is stated.A bunk house will be erected for

WASHINGTON, Nov. 19.—An un-
official German mission will arrive in
the United States shortly, the state
department announced this after-
noon. The mission is composed of
business men who are coming here
to make large purchases of raw ma-
terials and to study business condi-
tions, it was said.German citizens may enter the Unit-
ed States now on personal business,

A large number of automobile-
ists of Morgan county are running a risk
of being fined, it is believed through
ignorance of the law, Probate Court
Clerk John Green stated today.He called attention to schedule 9 of
the license act, which requires auto-
mobile owners to place their license
tag on the rear of their car."Many owners have their tag on the
front of their car," Mr. Green said,
"which is clearly in violation of the
law and subjects offenders to a fine of

for the proposed new high school
building, made by Dr. F. B. Dress-
lar, specialist in school house con-
struction, were given the Albany city
council last night at its regular meet-
ing in a statement made by the Board
of Education.All three of Dr. Dresslar's recom-
mendations for sites include the ter-
ritory set apart by the Decatur Land
company years ago for a city park
and should one of the sites be selected,
it will be necessary for the land
company to dedicate the property for
school purposes. City Attorney Ten-
nesse Tidwell was instructed to inter-
view the secretary of the land com-
pany in regard to the change.Dr. Dresslar submitted a map, dot-
ted with pin points, representing each
residence from which there is a high
school student, and showing that the
three sites he selected are in the geo-
graphical center of the city and would
be in the center of Decatur should the
sites be consolidated.The Board's report follows:

A CRISIS CONFRONTS NATION'S PUBLISHERS

So acute is the news print situation that the publishers of the South have been called to meet in Birmingham next week to devise ways and means to bridge the chasm. The American Newspaper publisher's association met last week in the East for the same purpose.

The public may take it for granted that these publishers are not the class of men who attend gatherings for the pure joy of going. All of them have business at home, and that they are to put their heads together is more significant than is generally known. For the first time in the history of America, the consumption of news print, the white paper, on which newspapers is printed—is in excess of production. Statisticians claim that the shortage is at least ten per cent, which means that some of the newspapers are to be forced to suspend publication unless concerted action is taken to meet the crisis.

The only thing that can save the day for the publishers is for them to curtail the use of news print. This can be done by printing fewer pages and reducing the size of the Sunday editions. To do this will mean an increase in advertising rates of at least 25 per cent, for the present high cost of paper, of labor and of various printing materials does not permit a smaller paper without a higher advertising rate.

Or in other words, the newspaper, like the merchant, can sell cheaper if it sells in quantity. The news section cannot be materially reduced, and in order to secure a sufficient revenue to meet expenses and return on their investments, the publishers must sell their limited advertising space for more money.

Three years ago the larger publishers were buying news print for \$1.90 per hundred pounds. During the war the price advanced to, in some instances, \$4.00 and \$5.00 per hundred pounds. Today the Daily, along with many other smaller publications, is paying around \$8.00 per hundred pounds for this commodity, and there is every indication that the price will be advanced to perhaps \$10.00 or \$12.00 per hundred pounds. This, of course, is profiteering, but unless the government intervenes there is nothing to be done about it except to pay the price. The paper mills are monarchs of their fields, and with every publisher scrambling to meet his individual needs, there is no reason to expect improved conditions.

INCREASED ADVERTISING RATES INEVITABLE

At a special meeting of the American Newspaper Publishers Association the President, Mr. F. P. Glass, placed some figures before the members which vitally affect not only the newspapers but the great body of advertisers in the United States. Since the signing of the armistice news

print consumption in the United States has increased about thirty-five per cent and many newspapers have doubled their volume of advertising.

The manufacturers of news print have gone to the limit of their resources but have been enabled to increase their production only about five per cent above the pre-war output.

Several suggestions were made as to eventual relief being obtained if certain water power legislation goes thru congress which will result in the establishment of many new mills in the Northwest and Alaska and also if improved reciprocal relations can be established between our government and Canada as to the importation of Canadian stock. But these things are all in the distant future and the emergency of the present demands some concerted plan of action by the newspapers.

It is very probable that all newspapers will have to cut down their use of paper, restricting the amount of display advertising and number of cuts used. The appearance of the paper will have to be sacrificed to some extent to space saving. Another thing is bound to come and that is a substantial increase in the rates charged advertisers for space.

A great many newspapers here in Alabama have not advanced their advertising rates to any great extent and yet they have been faced with an increase of three or four times the price of paper, the price of type metal has practically doubled, the price of ink has almost doubled and the wages paid every workman have nearly doubled. Under these conditions there must be a substantial raise in all kinds of advertising rates and there must be a cessation of the lavish giving away of free space which the public seems to think should continue indefinitely. The large metropolitan dailies with the splendid rates which they secure for their space will gradually absorb the available output of news print and the smaller dailies be seriously crippled if not put out of business unless the advertisers realize conditions and cheerfully consent to a raise in their rates which will enable the papers to pay the prices now demanded for paper and operating expenses.—Selma Journal.

It occurred to me that it would not be amiss to let you, a friend of progress, know how the people outside of the Twin Cities stand on this important question. I do not pretend to give the impression that anybody of my acquaintance needs to have me speak for them, but I would like to say, in passing, that among all the people that I have heard express an opinion on the above subject, there has not been one, (who lives outside of either city) who has expressed an opinion or attempted to offer an argument against consolidation. And it is not because they are not interested, but because they are interested.

Vitally interested because if we continue to have two municipalities within so small an area as the Twin Cities occupy, then we will never have one big city in this part of North Alabama, the richest and best part of the state, and it is conceded by every one that there is the logical spot for a city, and the only one, in this part of the state. I have many times heard it said that if the residents of the two cities would just for a time lay aside the petty prejudices, that they may have against consolidation, and work together just once for general welfare of their community, then they would see the reasonableness of the question and make one good city, that will attract other industries, and larger ones.

Please understand that the only reason I have for saying these things is because I am a resident of this splendid community and am interested in seeing its growth and development carried to the utmost extent; which things can come only by the co-operation and thoughtful leadership of the foremost people.

So long as everybody works there is plenty. All hands are happy.

What Nuxated Iron Is Made From

Sworn Statement of Composition of Its Formula

It increases the strength and endurance of delicate, nervous, run-down folks in two weeks' time in many instances.

The Board of Directors have authorized the broadcast publication of the sworn statement of the composition of Nuxated Iron, one of the most widely used tonic, strength and blood builders in the world, so that the public may examine it for themselves and judge it to its merits.

It is commonly estimated that this remarkable formula is now being used by over 3,000,000 people annually in America alone. Among those who have used and strongly recommended it are many physicians formerly connected with well-known hospitals, former United States Senators, members of Congress, and former Health Officials.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. If you are a physician, make a record of it and keep it in the office so that they may intelligently answer questions of patients concerning it. Everybody is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to anyone who desires such. It is as follows:

Iron Peptone (Special specific Standard) Quantity given here is Sodium Glycero-phosphates U.S.P. Calcium Glycero-phosphates (Monsanto) U.S.P. P. E. Nux Vomica U.S.P. Cascarilla Bitter Magnesium Carbonate Oil Cinnamon U.S.P. Calcium Camphor U.S.P.

Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptone of a special specific standard which in our opinion possesses superior qualities to any other known form of iron. By using other makes of Iron Peptone we would have to use one and one-half times the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost. In using Nuxated Iron we must have most certainly impaired their tonic efficacy. Glycero-phosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recom-

mended to build up the nerve force and thereby increase brain power as glycero-phosphates are said to contain phosphorous in a form very similar to that in which it is found in the nerve and brain cells of man.

As you have seen from the above, two important ingredients of Nuxated Iron (Peptone and Glycero-phosphates) are very expensive products as compared with most other tonics.

Under such circumstances the temptation to adulteration and substitution by unscrupulous persons is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron" by the Due Health Laboratories, Paris, London and Detroit, U. S. A., as this is the only guarantee that the product is pure.

It is recommended that you do not buy Nuxated Iron until you have seen the above statement.

Russian Girl Stowaway Troubles U. S. Officials

(International News Service) DENVER, Nov. 19.—Denia Lucia Lauberg, a fourteen-year-old Russian miss, has won the sobriquet of "Myri-teen girl" here, after a series of thrill'g experiences during the past year that included a trip as a stowaway on the Japanese liner Tambo Maru from Shanghai, China, to Seattle, Wash.

Her story was narrated in the stoic manner of mature persons from her native land. The immigration officials here are benefitting from information they received from Seattle officials, who say she twice escaped from the immigration detention home in that city.

The girl's mother died in Fusan, Korea, leaving the orphaned child penniless. She found her way to Shanghai, where she stowed away on the Tambo Maru, arriving in Seattle after many hardships.

Denia is being cared for at the Good Shepherd Home here, pending decision of immigration officials at Washington.

Wilson Dismisses All Physicians Except Grayson

(International News Service) WASHINGTON, Nov. 19.—President Wilson has so greatly improved in health, it was learned today, that the daily consultation of physicians has been discontinued. Dr. Grayson is now handling the President's case alone, except for the weekly check-up on Saturday, when two other physicians are called in.

DOCTORS GAVE UP SAYS MRS. GOMAS, OF CHATTA- NOOGA—HERE IS HER TESTIMONIAL:

Chattanooga, Tenn.; I want to thank you for the good Systone did my husband. Last year he was down with the Flu. The doctors said they would not give five cents for his life. I heard about Systone and got a bottle. He began to improve from the first dose, and in five days he went back to work. MRS. ELIZA GOMAS.

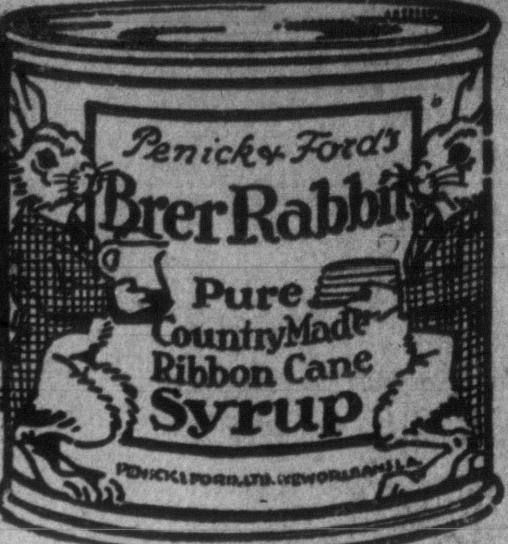

This is only one of many testimonials we have from people who had the Flu and from those who know Systone kept them from having this dreaded disease.

Insist on SYSTONE. It will keep your system healthy.

Get the Habit Eat Brer Rabbit

SOME people prefer banana fritters to fried hominy. It's a matter of taste.

Pour the delicious BRER RABBIT syrup over either of them and forget the argument.

If you're not getting the kind of syrup that satisfies your folks, now is the time to act.

Ordinary Syrups and BRER RABBIT are alike only in the fact that all are sweet.

Here's where BRER RABBIT differs: The label says—"Pure Country Made Ribbon-Cane Syrup"—with the most delicious wholesome and appetizing flavor.

FLAVOR! Ask your grocer why his best customers demand BRER RABBIT.

Housewives everywhere know that the name "PENICK & FORD" on a food means Always the Best of its Kind, 22 years of quality.

THANKSGIVING

(Sam Walter Foss)
I'm thankful for the glow and grace
And beauty of the Near,
The greatness of the Commonplace,
The glory of the Here.
I'm thankful for man's high emprise,
His stalwart strength of soul,
The long look of his skyward eyes
That sights a far-off goal.
And so I feel to thank and bless
Both things unknown and under-
stood—

And thank the stubborn thankfulness
That maketh all things good.

PLACES

Places I love come back to me like
music,
Hush me and heal me when I am
very tired;
I see the oak woods at Saxton's flam-
ing
In a flare of crimson by the frost
newly fired.
And I'm thirsty for the spring in the
valley
As for a kiss ungiven and long de-
sired.

I know a white world of snowy hills
at Boonton,
A blue and white dazzling light on
everything one sees,
The larches and hemlocks and maples
sparkle,
Their ice-sheathed branches tinkle
in the sharp thin breeze;

And iridescent crystals fall and
crackle on the snow-crust
With the winter sun drawing cold
blue shadows from the trees.

Violet, now, in veil on veil of evening,
The hills across from Cromwell
grow dreamy and far;

A wood-thrush is singing soft as a
violin

In the heart of the hollow where
the dark pools are;
The primrose has opened her pale
yellow flowers
And heaven is lighting star after
star.

Places I love come back to me like
music—

Mid-ocean, midnight, waves buzz
drowsily;

In the ship's deep churning the eerie
phosphorescence
Seems like souls of people who were
drowned at sea;

And I can hear a man's voice, speak-
ing, hushed, insistent,
At mid-night, in mid-ocean, hour
on hour to me.

THE HOSTAGE
We hid our fears when fighting—
Are we afraid of Peace?
So wan a look she has, poor dear—
We know not who she is.

We thought of her in longing—
Dearest and loveliest;—
Most musical, with shining hair
And sun-encircled breast.

Can this be she, then, hiding
The dust marks on her dress,
Who comes, like some sad hostage,
To ask for happiness?

PROGRESSIVE

CULTURE CLUB

Mrs. S. A. Lynne was hostess on
Tuesday afternoon to the Progressive
Culture Club, at three o'clock,
the chairman, Mrs. W. R. Shelton,
opened the meeting, calling on the
secretary, Mrs. George D. Williamson
for roll call and the minutes.

Even though a goodly number of the
membership was at Huntsville attend-
ing the convention, those present
made up in enthusiasm for lack of
numbers. These programs, "Women
in Reconstruction," are such gems,
one afternoon's work when missed is
felt keenly. "Vacation reminiscences"
were continued, when Mrs. E. C.

Payne held the interest of all when
she reviewed a summer's visit, inter-
spersed with pictures of localities and
houses that visualized stories by Hawthorne
and Irving. During the business
session, Misses Godfrey and Anderson
were introduced, who spoke on
subjects of vital interest locally.

Miss Anderson, a Red Cross nurse of
15 months overseas service, has been
sent by the Anti-Tuberculosis League
to this district to make a health sur-
vey, and presented cases and condi-
tions that call for immediate attention.

Miss Godfrey, in whom we are
all interested as a local girl, who
makes every hour count, is making an
effort in school survey work in
conjunction with the work of Miss
Anderson. Now, with the club women
interested, an open air camp for
tuberculosis cases and an open air
school for delicate children is pro-
posed, who may continue mental as
well as physical development. Wem-

CINCINNATI, Nov. 9.—With cries of
"Remember Centralia. Don't forget
our Legion members who laid down
their lives in Washington. Let's make it
a war to the death" and similar
expressions, 300 members of the
American Legion late last night raided
the Socialist party headquarters on
Vine street and tossed hundreds of
pounds of radical literature into
the streets where it was burned. No
one was in the building when the raid
was made. Most of the literature had
been printed for the communist labor
party of America. Police said they
took no names nor recognized any of
the raiders.

TODAY

Wall Street Tiger Hunt.
To Pay England's Debt.
Chinese Bird and Beetle.
Lynching and Law.

(By Arthur Brisbane.)

Not everybody can go tiger shooting, but anybody can "play the market." Those that were speculating yesterday and the day before have not much to learn about excitement from the professional tiger hunter. To have a drop of sixty-eight points spring at you from the ticker is as exciting as to have a striped, well-camouflaged beast leap out from the jungle.

The tiger hunter, sitting in a "howdah" on the back of a tall elephant, is safer than the Wall Street speculator perched on the top of a small bank account.

Newspapers tell that some men, recently speculating, have killed themselves. The newspaper line is "Financial Reverses." Why will man endure cancer, divorce, disgrace, rheumatism, Riggs disease, indigestion, family troubles and still cling to life, but when he loses money blow out his brains? The answer is that ordinary troubles have been endured for thousands of years, men are hardened to them. But financial worry is new, and the brain does not stand it.

Don't envy the man who is "making money" in the stock market. To watch a ticker with a banker on your right, a broker on your left and the chasm in front of you is worse than being chained in the galleys, more uncertain and much more unsafe.

The Statist, solemn British financial publication, has a scheme to pay off the debt of England.

The interest on that debt, five hundred million pounds, hangs like a millstone around the nation's neck. The scheme is to make the Church of England, to which the King belongs, sell its property and pay the debt.

The Church property includes Westminster Abbey, and it is actually suggested that the Abbey be put up at auction and sold to the highest bidder, with all the interesting graves in it.

A piece of news from the Agricultural Department will interest China. In New Jersey the Japanese beetle has been destroying crops. American birds did not like the beetle, would not eat it. The Agricultural Department discovers that the Chinese pheasant will eat all the Japanese beetles he can get, and that beetle problem seems to be solved.

In China, where the Japanese beetle is devouring the Chinese birds, this will be interesting news and stimulate the hope that America will come over to prevent the Japanese beetle finishing the Chinese bird.

Silver having crossed the magic 16 to 1 line, a silver dollar is actually worth more than a gold dollar. It would pay to take new silver coins, melt them and sell the silver.

In France, where the value of a franc is cut in half by exchange rates, silver coins are rapidly disappearing into the melting pot, and the only small change is the copper sou or double sou.

Judge of Helena, Arkansas, sentences to death eleven negroes convicted of murder in the first degree in a recent outbreak. At about the same time a mob at Little Rock, Arkansas, takes from officers and burns alive a negro accused of killing a sheriff. The one lynching does much to weaken respect for law as shown in the eleven convictions.

LAW is the one thing that the lawless fear. When the public begins lynching, pushing law aside, lawlessness becomes the fashion and the public likes it.

This country could learn much about law enforcement from England. There, the murderer is always hanged, there is no doubt about it; if he is proved guilty. Murders are few, compared with our country, and lynchings practically unknown.

THOUGHT MY LIVER
WAS ON STRIKE

Head Was Giddy; Spots
Danced Before My Eyes;
Breath Foul; Was Tired and
Drowsy. Dresco Wiped It
Out.

"I have suffered for quite a while with sluggish liver at times. I would get a sharp pain in the liver and all the spots would dance before my eyes; I had headaches and a bad taste in my mouth; my appetite became poor, and my food did not digest nor give me strength; my stools were often soft and gave bad smelling emanations, much uncleanliness. The pains often extended around to my back and limbs so that it was an effort to keep on with my work," says Mr. T. E. Morton of 1001 Lambert Ave., Mobile, Ala.

"There was so much talk about and praise being given Dresco I decided to try it. The first bottle proved to me it was the best liver tonic I ever took. I research and relieved the gas-forming. I continued the treatment, and never have a dizzy spell nor see the spots before my eyes; my bowels are regular; my appetite is good and the food digests well; gives me strength. I don't have any more pains in my back or limbs, and haven't had a headache in a long time. Dresco is a good medicine, and I gladly add my voice to those who recommend it."

Dresco acts on the liver in a smooth, gentle manner, gradually working off the excess bile day by day. It is neither strong nor harsh, and does not excite the mind or the bowels. It has no irritant properties. It tones up the digestive organs and relieves gas on the stomach; puts an end to constipation; increases the appetite; gives strength to weak kidneys; relieves the liver and bowels, induces sound sleep. Dresco is a great blood purifier and system cleanser.

Dresco is sold by all druggists and is highly recommended.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year—in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do is get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonsful with four teaspoonsful of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children—Ad.

WICHY KOO TAKES
HOUSE BY STORM
To Appear at the Masonic Theatre
Thursday, Nov. 20.

(Daily Press, Newport News.)
"Wichy Koo" was mildly speaking received with enthusiasm in its first appearance here last night at the Academy of Music by a large audience, who, just having reacted upon Mitzl and Detwolff Hippier, came again to the same source for more of their kind.

"Wichy Koo" is a musical comedy, or more explicitly speaking, a very broad farce, as euphonious as its name indicates. It is featured by fun and foolishness, girls and gurgles and Jimmy Lucas. These are but no more, as the things it contains but always Jimmy Lucas. Then there is a young lady programmed as Vera Grey. But she is not. In fact she is very gay, and there are numerous other people who'll beat us out in that. She is a clever ringer for the white.

Her partner is also a clever worker, and not to be overlooked in the cast is Juanita Cunningham, and we vouch for the fact that she is cunning. She is all of that and a very good singer in addition. And Helen Collins. No, she doesn't look like Helen Pink, she looks good in any little thing she puts on, and she puts on some mighty little things.

During the two acts and thirteen scenes about everything in the way of high-class vaudeville and musical comedy stunts is uncorked. The dancing is very good and a great majority of the songs catchy and uncommonly well sung, by both principals and chorus—a real beauty chorus at last.

"Wichy Koo" will be repeated tonight with a special matinee at 2:30. H. Hogge Wilkinson.

Brought Down to Date.

"Man wants but little here below, nor wants that little long," is what they sang some years ago—but it's now another song. The words we use are different quite, though fully a sublime. "Man wants everything I sight, and wants it all the time."

TENNESSEE
LADY RUN-DOWN

And Hurt In Side Of Her Head, Is Benefited By The Use of ZIRON Iron Tonic.

After severe illness, overwork, worry, grief, accidents, etc., the greatest need of the weakened system is a tonic that gives quick, dependable strength. In such cases, try Ziron Iron Tonic.

Ziron is a pleasant medicine, having the strengthening effects of iron with other valuable building ingredients. Read what Mrs. Emma Manus, of Las Vegas, Tenn., says about it:

"I was weak and run-down, not able to do my work. My trouble was all in the side of my head. I heard of Ziron and got a bottle, and I am glad to say it has done me more good than anything. Ziron is a splendid tonic."

Try Ziron. It may be just the medicine you need. Ziron contains no habit-forming drugs. It is a safe, reliable tonic good for children, men and women.

Capper Says People Oppose Big Army

(International News Service.)
WASHINGTON, Nov. 19.—The American people are opposed to compulsory military training and a large standing army in time of peace, Senator Capper, republican of Kansas, declared today.

Warm praise of the views of Gen. Pershing, and opposition to the views of Gen. March and Secretary Baker was expressed by Capper.

Beginning of Great Industry.

Plymouth was the first permanent white settlement in New England and dates its founding from the landing of the Pilgrims, December 21, 1620. The iron works on the banks of the Saugus River, established in 1643, were the first iron works in America. A small iron pot cast there in the first forge in America is now the property of the city of Lynn and is in a glass case in the Lynn public library.

HOW TO PLEASE YOURSELF

Some men want Style—some men want long service. Style is more easily worked into soft clinging fabrics. It is not so easily worked into hard fabrics that wear long but look "shiny."

Today woolens are scarce—they are going to be more scarce. You have to pay a little more for any suit this season, whether you buy it for style or for a year's service.

Fruhauf hand tailored clothes all have style—it's sewn in BY HAND and you see it the instant you look in the mirror—and they wear.

The never ending chain of Fruhauf wearers going out of this store convinces us that you get here more style, comfort and service at the price than you get elsewhere. Come in today and see how different our fitting service really is.
